

Academic Enhancement & Leadership Development Centre

(ADeC)

International University Carnival on e-Learning (IUCEL) 2017

IUCEL is organised in collaboration with The Malaysian e-Learning Council for Public Universities (MEIPTA), and Ministry of Higher Education. This carnival act as a platform to promote, explore and share best practices and global expertise in e-Learning applications at all level of learning institutions from around the world. ADeC took this chance to promote and introduce UM's centre for teaching learning to the visitors. ADeC's Deputy Director, Dr. Farrah Dina Yusop from Faculty of Education won a Gold Award for her project "ICARES: AN ONLINE EDUCATIONAL MOBILE APPS PORTAL TO ENHANCE YOUR MULTIPLE INTELLIGENCES" .

Congratulations Dr. Farrah for the remarkable achievement!

Gamify Teaching and Learning with Technologies

ADeC organised a half-day workshop on Gamify Teaching and Learning with Technologies, facilitated by Mr. Zaid Ali Alsagoff, who's a learning innovation specialist. We received an overwhelming participation from lecturers and had lots of fun activities on the day. We would like to thank all participants for your commitment and time to attend this workshop.

Visit to AGILE and Taylor's University

On 19th of September, delegates from ADeC visited Advanced Global Institute of Learning Excellence (AGILE) of Taylor's University in order to gain and share knowledge with their team. AGILE's Director, Dr. Daniel Tan explained to us their strategy on reaching their target clients, on what they hope to achieve and their milestone in T&L trainings in Malaysia. We received a warm welcome and were shown around AGILE's office and amazing multi session training spaces. We then moved to Taylor's Lakeside Campus to meet Mr. Lim Chee Leong, the Head of e-Learning Academy. Mr. Lim explained to us the latest technology used by Taylor's from capturing lectures and their Learning Management System to Mobile Classroom. We had a quick tour around the Taylor's Lakeside campus before we went back to ADeC. It was a refreshing and inspiring visit to Taylor's. ADeC will strive to adapt (some of the) amazing ideas we found.

Our big thank you to Dr. Daniel Tan and Taylor's community for the wonderful visit we had

Research Methodology and Statistical Help (ReSH)

Our consultant provides consulting services on statistical and research methodology for UM community, especially UM academic staffs and postgraduate students on various area at a minimal charges as per below:
