

Briefing Session – MLC 2018

8 February 2018

Materials Lecture Competition is back! To kick start the competition, a briefing session was conducted by Assoc. Prof. Dr. Andri Andriyana for prospective participants. The aim of this competition is to enhance awareness among young scientists on the importance of materials science and engineering in our life. The competition will be held on February 28 to select our representative for the highly competitive National MLC 2018 in April.

Teh Tarik Session

9 February 2018

The *Teh Tarik* Session was chaired by Assoc. Prof. Dr. Roslina Ahmad. We really enjoyed the *teh tarik* while listening to her talk. Hope to hear talks from other members soon.

MLC 2018 : UM Selection

28 February 2018

MLC 2018 was officiated by Assoc. Prof. Dr. Henk Metselaar, the Head of the Centre of Advanced Materials. During the event, we witnessed a number of young talented UM students demonstrating their excellent presentation skills. After a lengthy jury deliberation, the gold prize goes to Andrew Ng Kay Lup, a PhD student in the Department of Chemical Engineering. The silver prize goes to Wong Kai Thung (Department of Physics) and the bronze prize goes to Shee Siew How (Department of Physics), who are both undergraduate students. Congratulation to the winners and all the best for National Level!

Research Talk

22 March 2018

Assoc. Prof. Dr. Henk Metselaar delivered his talk on ***“Use of Phase Change Materials in PV Cooling”*** at the Universiti Tunku Abdul Rahman, Perak.

Workshop on Nanoindentation for Advanced Materials

29 March 2018

Crest Group of Companies, Bruker Nano Surfaces and Centre of Advanced Materials had organized a one-day **Workshop on Nanoindentation for Advanced Materials** at Faculty of Engineering, University of Malaya. The workshop includes talks from invited speakers with demonstration of Nanomechanical Test Instrument.

WORKSHOP ON NANOINDENTATION FOR ADVANCED MATERIALS
MARCH 29, 2018 FACULTY OF ENGINEERING, UNIVERSITI MALAYA
