- Water consumption: With reference to Mr. H. J. Cooper's inquiry at the last meeting the Chairman states that the consumption of water at Batu Gajah during July was much larger than shown in the return as an unmetred supply from the Sungei Johan was in use.
  - Capital value of waterworks: A letter from the Secretary to Resident on the subject of the method of arriving at the present capital value of waterworks is read. The Chairman brings to the notice of the Board Mr. Cooper's written opinion and also reads the reply he sent agreeing generally to the principle of computing the capital value in the manner described in the memorandum received with the Secretary to Resident's letter, subject to the revision, if necessary, of the State Engineer's figures and to consideration of the opinion expressed by Mr. H. J. Cooper. The Board confirms the Chairman's action.
  - Closing of fish ponds, pools, etc., Ipoh: The Health Officer proposes the following resolution after fully explaining his reasons for submitting it:

"That all fish ponds, pools and other unauthorised excavations within the Sanitary Board area of Ipoh, as per schedule submitted, be closed, filled in or drained so that they are unable to retain, collect, or form pools of water in all or any season of the year, under the powers conferred on the Board under by-law 192".

The resolution is seconded by Mr. H. C. Bathurst.
- Mr. H. J. Cooper proposes and Major H. F. Waters seconds an amendment to the effect that the Board issue notices on owners of ponds, pools, etc., defining clearly the requirements in each particular case, for the prevention of such collections of water being or becoming injurious or dangerous to health.
- On a show of hands the amendment is declared lost, the original resolution being carried by seven votes to six,

7. Recommendations by the Health Officer in connection with overcrowding, tuberculosis and conservancy: The Health Officer submits for consideration the following recommendations:

1. In order to remove the check to building and sanitary measures, that the Government Town Planner be required to submit his schemes without further delay, so that the holding up of approval to build by private enterprise and the uncertainty which has now continued for some time, caused by want of information of the requirements of proposed schemes, may terminate. Or, alternatively, that the Board sanctions the passing and approves of the plans submitted for dwelling houses. And, that roads, ultimately intended as main thoroughfares, be pushed as fast as possible, in order that insanitary collections of huts and dwellings may be dealt with, and conservancy and refuse disposal carried out, in those places at present inaccessible and a menace to health.
2. (i) Small alteration (as per plan submitted) to the present type of building of the shop-house class in order to ensure that the occupants of each room get fresh air, and direct day-light and to prevent overcrowding by fixing the number and position of rooms. The number of rooms in each house is not decreased but instead of dark, insanitary and ill ventilated cubicles, each room has a window opening on the exterior. The proposed alteration can be complied with without, in most cases, demolition, or any great expense.
- (ii) Window-shutters shall have fixed louvres, open to the fullest extent.
- (iii) Doors opening on the exterior of the building shall consist of fixed louvres or expanded metal opened to the fullest extent.
- (iv) No opening constructed for the purpose of ventilation or for the admission of light shall be covered up except in the case of windows by the shutters with open louvres constructed for that purpose.
3. (i) That a Central Tuberculosis Sanatorium or Settlement be established with vegetable or other forms of gardening and recreation, approved by the Health Department. The object of the gardening, etc., is for the graduated exercise or labour treatment.
- (ii) That a Medical Officer with experience in tuberculosis sanatorium treatment be obtained. He should be under the Health Department.
- (iii) That tuberculosis be made a notifiable disease under "The Quarantine and Prevention of Disease Enactment, 1903," in the larger towns to enable disinfection and other measures being carried out.
- (iv) That should it appear to the Health Officer that the premises upon which a patient suffering from a tuberculosis resides, are unsuitable or that the patient is unable to receive adequate treatment from a qualified practitioner, or unable to receive adequate care and supervision, the patient may on the order of a Magistrate, on the recommendation of the Health Officer, be removed to the central sanatorium for treatment.
4. That an adequate water supply be furnished as soon as possible so that a water carriage system of excrement disposal may be introduced.

It is decided to circulate the paper to be brought up for discussion at the next meeting.

8. Applications to erect buildings: In the case of an application to build on plan No. 10,323, Ipoh, it is decided to ask the Government Town Planner to indicate a site whereon the owner may build.

On the proposal of Mr. H. J. Cooper, seconded by Mr. H. C. Bathurst, the Board refuses to permit the extension of a workshop on plan No. 20,006, Ipoh.

Application to build a shop-house on plan No. 25,176, Batu Gajah, is deferred to the next meeting for consideration.

9. Fees for stalls in the poultry markets: Owing to a considerable falling off in the applications for stalls in the poultry markets the Board decides to reduce the fee, from 1st October, 1923, to 50 cents per basket per mensem.

10. Water supply for compound houses, Ipoh: The Chairman informs the members that he has asked the State Engineer to allow water supplies to the number of about fifty for compound houses in Ipoh. The Board supports the Chairman in the action he has taken.

11. Motor-car stand at Ipoh Railway Station: Mr. V. G. Savi urges the necessity for the provision of a stand for hire motor-cars near the railway station, Ipoh. The Board being in agreement with the suggestion, the Chairman promises to take action.

12. Island at junction of Brewster and Anderson Roads, Ipoh: Mr. V. G. Savi suggests an island being provided at the junction of Brewster and Anderson Roads, Ipoh, the regulation of traffic at this point being unsatisfactory under existing conditions. The Chairman agrees to having the island made.

13. The Board adjourns *sine die*.

Ipoh,

27th September, 1923.

A. J. STURROCK,  
Chairman.
