The Chairman explained that in Penang and Singapore no dealer's licence of identification mark, other than the registered number plates, are issued, but that the question of rebates to dealers who register cars and do not sell them within a certain time is under consideration.

Mr. Hampshire proposed that dealers' identification marks be used for a certain fixed period and after this time has expired, if the car still remains unsold, that the car be licensed and marks are the second with and number plates allotted to it in the ordinary way. Rebates to dealers to correspond with Singapore and Penang. The Board agreed.

The Chairman pointed out that the matter had been fully discussed at a previous meeting and the Board then considered that the parking place at the junction of Malay Street and Batu Road was the least objectionable. The Board recommended that no alterations be made.

9. Misuse of Dealers' Identification Marks for Motor Cars: The Chairman explained the difficulty of detecting the misuse of dealers' indentification marks, and made suggestions which he considered would do away with the difficulty. The Board after a prolonged discussion on the subject was generally in favour of all cars being licensed and number plates allotted to them in the ordinary way, and decided that no more dealers' identification marks be issued.

Mr. Hampshire said that he understood that the railway authorities contemplated raising the embankment behind the Selangor Club by about 8 feet in order to do away with the level crossing at the foot of the Club Road. As there are obviously a number of alternative schemes he considered that the Board should be consulted before any work is done. The Board agreed and decided to approach the Resident on the subject.
