No. 1822.—SANITARY BOARD, KUALA LUMPUR.—Minutes of an ordinary meeting held at the Sanitary Board Offices, Kuala Lumpur, on Wednesday, the 6th May, 1914, at 9.30 a.m.

PRESENT: Mr. C. F. J. Green (*Chairman*), the Health Officer (Dr. A. R. Wellington), the Protector of Chinese (Mr. D. Beatty), the Collector of Land Revenue (Mr. H. W. Thomson), the Executive Engineer, Town (Mr. H. E. Steele), the Superintendent of Revenue Surveys (Mr. H. R. Shaw), Mr. A. K. E. Hampshire, Mr. A. P. Robinson, Mr. H. P. Clodd, Towkay Choo Kia Peng, Towkay Khoo Keng Hooi, and Inche Tamby Abdullah.

ABSENT: The Government Architect (Mr. A. B. Hubback), the Chief Police Officer (Capt. A. McD. Graham), and Mr. K. T. Parimanam Pillay.

1. The minutes of the previous meeting having been circulated among the members were taken as read, and were confirmed.

2. The Executive Engineer's (Town) progress report for the month of March was laid on the table.

3. Additions to Staff for 1915: The Board agreed to the recommendations made by the Chairman in his letter (2) in 313/14 for additions to the staff for 1915. The Board considered that the present loitering and haphazard progress of empty rikishas in the streets of the town was one of the great causes of the congestion of streets. The remedy was that found necessary in the municipalities of Penang and Singapore. At least 24 more rikisha peons should be provided for in 1915 to deal with these rikishas. Mr. Robinson pointed out that three corporals would be required as well. The Board agreed.

4. Relationship between the Engineer's Department and the Sanitary Board: It was decided to postpone discussion on this subject until a reply to the Chairman's letter is received from the Director of Public Works.

5. Quarters for Twenty Drivers and Attendants: The Board agreed to the site proposed by the Health Officer for the erection of these quarters—viz., off Gaol Road, in the vicinity of the Sanitary Board cooly lines.

6. Referring to the Board's resolution of 6th March, 1914, that the triangular piece of ground in front of Sultan Street Station be used as a starting place for motor buses, the Chairman submitted a letter from the Acting Traffic Manager, Federated Malay States Railways, objecting to the proposal on the grounds of anticipated increase and consequent congestion of traffic at Sultan Street Station now that the railway to Ampang has started. He also submitted a letter from the Straits and F.M.S. Motor Service Co., Ltd., urging that they may be allowed to use this site as a starting place. After some discussion it was resolved, on the suggestion of the Executive Engineer, Town, that buses be allowed to use the ground referred to as a turning place and that they park on the space a little higher, between No. 2, Pudu Road and the police station grounds.

7. The Chairman informed the Board that Messrs. Huttenbach Bros. & Co. were summoned recently for non-compliance with a notice to whitewash the exterior of their premises in High Street, and that the case had been dismissed by the Magistrate. It was considered that the by-law as to whitewashing should be made more stringent and should further empower the Board to fix the shade of colourwashing to be applied to the exterior of any building.

8. An application for an increase of salary to Dewan Chand, Caretaker, Town Hall, was considered, and it was decided to recommend that he be granted an increase of \$5 a month.

9. An application from O'Aniff, Overseer, Town Reserves, for an increase of salary was considered, and it was decided to recommend that his salary be raised from \$45 to \$50 a month.

10. The Health Officer's Report on the health of Kuala Lumpur town for March, 1914, was submitted.

- (1) The estimated population of the first half-year is 57,702. The number of deaths which occurred within Sanitary Board limits was 226, giving a crude death-rate of 28.49 per mille as compared with 30.81 for the corresponding month of 1913.
- (2) There were 29 deaths of infants under the age of one year recorded, thus giving an infantile death-rate of 281.55 per 1,000 births.
- (3) There were 103 births notified, giving an uncorrected birth-rate of 21.42 per mille.
- (4) The diseases causing the greatest number of deaths were:

Disease.	Resident.	Non-resident.
Malaria ... ..	18	11
Pneumonia ... ..	4	8
Other lung diseases ... ..	6	6
Dysentery and diarrhoea ... ..	16	12
Convulsions ... ..	10	—
Beri-beri ... ..	12	8
Ankylostomiasis ... ..	9	5

- (5) There were no infectious diseases notified during this month.
- (6) The total rainfall recorded at the General Hospital for the month was 5.31 inches. The greatest fall for the 24 hours ending 6 p.m. was 1.64 inches on the 31st. There was no recorded fall for 23 days.

The mean temperature for the month was—

9 a.m. ... ..	78.05 degrees
3 p.m. ... ..	81.45 „
9 p.m. ... ..	79.03 „

- (7) Eighteen samples of milk were forwarded to the Government Chemist for analysis in March. All were of good quality.

11. Site for Cooly Lines: The Board agreed to adopt the site suggested by the Collector of Land Revenue in 419/14 (if found to be dry enough) for the cooly lines provided for under item 18, page 28, Annual Estimates, 1914.

12. The Chairman submitted correspondence regarding the use and storage of vitriol in aerated water factories, and invited the views of the Board as to the advisability of bringing such factories under the Dangerous Trades Enactment. The Board agreed that the manufacture of aerated waters was in the terms of section 4 of the Enactment prejudicial to the safety of people employed in the work and that the Enactment should be applied unless the manufacture came within the meaning of by-law (202) (iv) of the Sanitary Board Enactment. It would do so if dangerous to life. It was decided that further enquiries should be made.

13. Mr. A. P. Robinson drew attention to the danger arising at night time by the reckless driving of hired motor cars with inferior lights along Ampang Road, and suggested that they should be restricted to the same routes as motor buses. Mr. Hampshire pointed out the difficulty of distinguishing between such cars plying for hire and cars hired direct from garages. The latter could not well be restricted to certain routes. The Chairman undertook to see what could be done.

14. The following resolution proposed by Mr. H. P. Clodd and seconded by Mr. Choo Kia Peng was unanimously carried:

“In view of the fact that all towns in England with smaller populations than Kuala Lumpur have their own Health Officer, the Board is of opinion that it is essential that the Health Officer should be appointed solely for the Sanitary Board area of Kuala Lumpur, where the health conditions are necessarily more difficult and require even greater supervision than those of towns in a temperate climate.”

15. Mr. Robinson drew attention to the obstruction of the five-foot ways in the town and suggested that instructions should be given to Sanitary Inspectors to give this matter special attention. It was decided to do so.

16. Mr. Choo Kia Peng submitted the following questions:

- (1) (a) Has the work of improving junction of Brickfields and Petaling Roads been commenced?
- (b) In connection with this improvement will the Board cause the overhead railway bridge leading into Bungsar and Damansara Road to be widened?

With regard to (a): The Chairman informed Mr. Choo Kia Peng that the plan had been approved, and the Executive Engineer stated that the work is deferred by order of the Resident. The Board suggested that the work might be proceeded with.

(b) It was resolved to ask the General Manager of Railways to obtain provision for the widening of this bridge in 1915.

- (2) What portion of the \$3,250 (this year's vote) has been spent in making up and gravelling the cart-track between Hokien and Cantonese Cemeteries?—The Chairman replied that the question did not reach him in time to get particulars of the amount spent. The work is not being performed by the Executive Engineer, Town.
- (3) When do the Board propose to instal electric lighting on Galloway Road? If nothing can be done this year will the Board cause temporary lighting to be put up first?—The Chairman stated that if the electric light could not be installed this year steps would be taken to light the road with oil lamps as a temporary measure.

Mr. H. P. Clodd submitted the following questions in connection with the annual report for 1913:

<i>Question.</i>	<i>Answer.</i>
(1) Dumping Ground—	
The new ground selected in June, 1911, is considered unsatisfactory. What steps are being taken to provide a new site?	The best method of dealing with the matter, whether by drainage or shifting the site, is being considered by the Senior Health Officer. The Board was of the opinion that it is a matter of great urgency requiring immediate attention
(2) Executive Engineer's Expenditure—	
What is the reason for non-expenditure of the following votes:	
	Provi- sion.      Spent.
Extension, water main, Petaling, Pasar, Pudu, etc.	\$14,000 ... \$ 2,639
Substitution of 9" steel mains in place of earthenware pipes, Ampang reservoir	30,000 ... Nil
Extension to embankment	34,306 ... 13,670
Additional filter bed	30,000 ... 2,646
Extension, water mains, Ampang village	13,100 ... 354
Widening Ampang Road	13,500 ... Nil
Drainage of Bukit Nanas	6,600 ... „
	Late delivery of the pipes from the Crown Agents
	The pipes were only received from the Crown Agents in December, 1913
	The Executive Engineer would reply at the next meeting
	Plans were approved and contract let, but the contractor withdrew
	Delayed arrival of pipes for mains from Crown Agents
	This was held up pending decision as to the exact spot where the bridge is to cross the river
	The drainage has been attended to in another manner which is giving satisfaction, and which did not call for the expenditure
(3) Destructor—	
What action is it proposed to take in regard to the Health Officer's recommendation to call in an expert to report on the work of the destructor?	The Chairman replied that he had written to the State Engineer asking him to suggest an expert and that the Health Officer and himself were going to Singapore and would make inquiries there.
(4) Infectious Diseases—	
What steps are proposed to be taken in connection with the confusion of authorities referred to in para. 28 of the Health Officer's report?	The Chairman said he had seen the Resident and that he had promised to have the Health Officer gazetted under the Quarantine and Prevention of Diseases Enactment, but up to date the notification had not appeared, also two peons were necessary and a sum of about \$500 for emergency expenditure

17. The Protector of Chinese asked that the Board approve of the action taken by him with regard to hawkers. Hawkers had recently been continually arrested and moved on by the Police and Sanitary Board Peons. The hawkers had come to see him in large numbers. They were people who lived on the edge of starvation and if deprived of their present means of earning a livelihood would go to swell the criminal class. He had arranged with the hawkers that they should occupy one side of certain lanes leaving the main roads and five-foot ways free of obstruction. He asked that the matter be allowed to so remain until the Board had decided upon its policy and obtained the approval of the Government as to the provision of small markets above the town. The Board agreed.

18. Notices and Prosecutions: Lists of notices and prosecutions were submitted to and approved by the Board.

19. Applications for Water Supplies: Water supplies to the following premises were approved by the Board: Nos. 41 and 43, Rodger Street; 19, Malay Street; 10, Church Street; 85, 97 and 150, Batu Road; 17 and 36, Cross Street; 23, Ampang Road; 108, Ampang Street; lots 121, 122, 123 and 124, section 61, Pudu; "The Retreat," Circular Road, Kuala Lumpur; lots 76 and 77, section 9, High Street; and 175, High Street.

C. F. J. GREEN,  
Chairman.
